PROFESSIONAL SUMMARY

Junior Java Full Stack Developer and IT fresher with hands-on project experience using Java, Spring Boot, REST APIs, React, JavaScript, and MySQL. Built features such as user sign-in, order history, and Razorpay payment integration. After eight years in manufacturing quality control, I'm bringing my attention to detail, practical problem-solving, and team mindset into software development. I enjoy learning by building useful applications and am ready to grow as a developer.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript

Frontend: React, HTML, CSS

Backend: Spring, Spring Boot, REST APIs

Database and Persistence: MySQL, H2, JPA, Hibernate

Tools: Maven, Postman, Git, GitHub

PROJECTS

VegKart | Online Fruits and Vegetables Web Application

Technologies: React, JavaScript, Java, Spring Boot, REST APIs, JPA, Hibernate, MySQL

- Developed a full-stack application for browsing and managing fruit and vegetable products, with product search, filtering, and shopping cart functionality.
- Built a responsive React frontend and Spring Boot REST APIs for product management and backend operations; integrated MySQL with JPA and Hibernate for persistent storage.
- Implemented user sign-in, a previous order history view, and online payment integration using Razorpay.

MultiTool Website | Multi-Purpose Web Application

Technologies: React, JavaScript, HTML, CSS

- Developed a responsive React application with reusable, interactive components; all tools are functional, including calculators, converters, currency and weather tools, percentage and EMI calculations, loan estimates, and QR code generation.
